“Vermont Tent is the *best wedding vendor* I have ever worked with in the event industry. We’ve worked with great vendors from NYC, Bermuda, Ireland, and throughout New England, and Vermont Tent is hands down the best. We dream up big ideas and they make it happen every time, with a smile. I cannot say enough good things about their team... the people really do make the company!”

# our tents

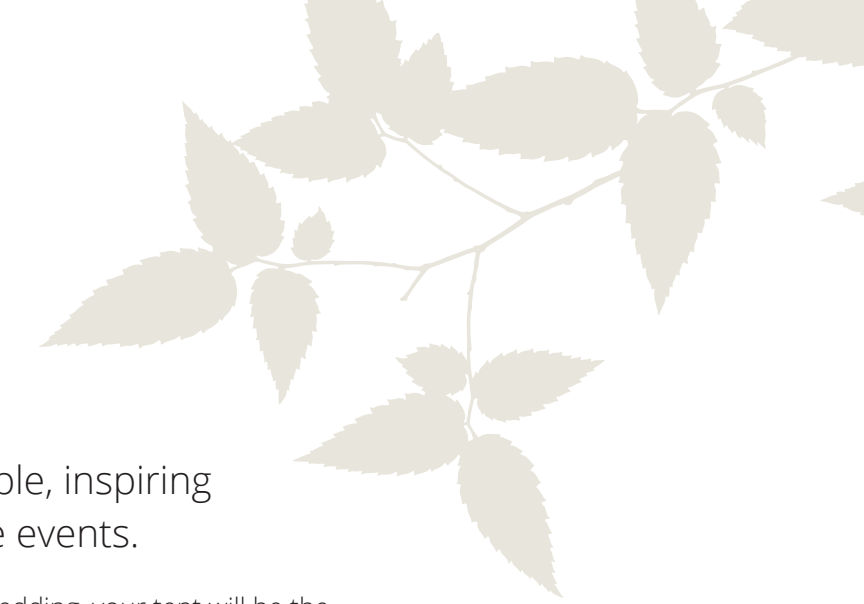

The right tent will create a comfortable, inspiring space to host your most memorable events.

Whether it's an intimate backyard party, festival or wedding, your tent will be the space where memories are made. We have the largest and most diverse inventory of tents in Vermont — so you know you will find the right tent for your event.

Tents are available in a wide variety of styles and sizes. From the natural elegance of a sailcloth tent to the majestic peaks of a tension tent, you will find the perfect fit for your guests, your location, and your personal style.

Tents can be made to fit your needs with a variety of accessories, and we have solutions to fit most budgets.

*Contact us to find out more. Our event coordinators are happy to discuss the details of your event, or to schedule an appointment to meet with you in our showroom.*

# frame tents

Compact, versatile frame tents excel in tight spaces for any type of event.

Our frame tents accommodate a variety of uses. They easily connect to other frame tents, and are especially useful in locations with limited space or where staking is not allowed, such as asphalt surfaces.

This traditional-style tent is built with a structural aluminum frame and joined by steel fittings that are used to support the vinyl fabric roof. The rigid framework allows the tent to be free standing, with no interior poles required to support the vinyl fabric roof.

Clear tops and sidewalls are available, which are popular for nighttime events and locations with stunning views. Guests in clear tents enjoy a more open atmosphere and can fully appreciate the surrounding scenery.

## Sizes available:

### White or clear top tents

10' x 10' (expandable with 10' middle sections)

15' x 15' (expandable with 10' middle sections)

20' x 20' (expandable with 10' middle sections)

30' x 30' (expandable with 10' middle sections)

40' x 40' (expandable with 10' middle sections)

# clearspan tents

Stunning and strong, clearspan tents bring nature in and leave noise out.

Clearspan tents are a step up from the traditional frame tent. An assembled framework of beams allow for the white or clear fabric panels to slide over the beams to create a much stronger structure and quieter atmosphere. There are no interior center poles in the tent.

The look of the clearspan tent is much cleaner, as fewer buckles and straps are needed to secure the fabric roof to the frame. The tensioning is achieved with the sliding of the fabric panels into the beams.

This tent is also highly customizable, allowing a combination of white and clear roof panels to create a unique space for your outdoor event.

## Sizes available:

**White tents with clear sidewalls**  
50' x 50'  
(expandable with 10' or 15'  
middle sections)

**Clear tents with clear sidewalls**  
50' x 50'  
(expandable with 10' or 15'  
middle sections)

# module tents

Majestic, elegant, and spacious, module tents are suitable for even the most formal of events.

The module tent is a high-peak tension tent that relies on the tightness of the vinyl fabric roof for its structural integrity and shape. There is no interior framework visible under the tent, as the vinyl fabric roof is supported by center poles which create the dramatic high peaks.

The modern design of this tent features rounded ends, rather than square ends, giving it more unique look compared to a traditional frame tent or the rectangular-shaped century tent.

**Size available:**

40' Round (expandable with 25' middle sections)

---

# century tents

Similar to the module tent, century tents balance modern flair with traditional elegance.

The century tent is also a high-peak tension tent that relies on the tightness of the vinyl fabric roof for its structural integrity and shape. The vinyl fabric roof is supported by center poles to create the dramatic high peaks.

This tent has a more modern look than a frame tent, yet it retains a traditional square or rectangular footprint, compared to the rounded shape of module tents. Depending on its width, it may have a single row or two rows of peaks.

**Sizes available:**

---

30' x 30' (expandable with 15' middle sections)

---

40' x 40' (expandable with 20' middle sections)

---

50' x 40' (expandable with 20' or 30' middle sections)

---

60' x 60' (expandable with 20' or 30' middle sections)

---

100' x 100' (expandable with 30' or 40' middle sections)

# sailcloth tents

Inspired by the sea, sailcloth tents are constructed of sailcloth material and set the stage for elegant events.

With nautical flair, the sculpted peaks and eaves of this tent create an event space like none other. Translucent sailcloth allows natural light to enhance any daytime event and glows brilliantly when lit for evening gatherings, producing a modern, inspiring atmosphere.

The sailcloth tent features natural wood side poles and center poles. There are no valances along the bottom edges of the roofline, which enhances this beautiful, clean look.

## Sizes available:

20' x 27'

32' x 30' (expandable with 20' middle sections)

44' x 43' (expandable with 20' middle sections)
